Full Turn-Key Service

At RMS Shopfittings Christchurch Ltd we are accustomed to providing a full turn-key service to our customers. The services we provide are:

CO-ORDINATION WITH DESIGNERS ➔ To work with the client’s own designer, or a designer provided by RMS Shopfittings to establish the scope of a project and an achievable timeframe.

BUDGET ESTIMATION ➔ Estimation of costs based on a design concept, for the purpose of committing the client to further design development, establishing the feasibility of a project and the proposed cost.

COSTING ➔ Accurate costing based on a developed design, scope of works and a schedule of finishes to establish a tender sum for submission or a fixed contract price.

PROJECT MANAGEMENT ➔ All projects undertaken by RMS Shopfittings Ltd are allocated to one of our in-house project managers. It is their responsibility to create and drive the programme to meet our commitment to the client.

APPROVALS / CONSENT ➔ We lodge building consent, arrange structural engineers, obtain producer statements and seek landlord approvals. At job completion we arrange final inspection and obtain the council Code of Compliance.

IN-HOUSE JOINERY/SHOWCASE MANUFACTURE ➔ The manufacture and supply of all components required for the completion of a fit-out. This can include display systems, point-of-sale units, graphic display, architectural features, shop fronts, signage, storage and furniture. We have the capability to work in plastics, metals, composites, laminates, solid surface, panel products, solid timber, glass and fabrics.

BUILDING WORKS ➔ All on-site work required to complete a fit-out that is normally carried out by carpenters we classify as building works. This includes, but is not limited to, set-out, structural work, partitions, ceilings, installation of joinery and furniture, shop fronts, stopping and plaster finishes, and decoration.

SUB-TRADES ➔ Trades which are not carried out by RMS are sub-contracted out. These include, but are not limited to, phone and data cabling, plumbing and drainage, security, air-conditioning, fire protection, flooring finishes and tiling. Companies sub-contracting to RMS Shopfittings Ltd are selected on the basis of their ability to provide a service to the high standard set by RMS, at the right price.

REPAIRS & SERVICE ➔ RMS has built a strong reputation for service and quality. Our service does not end when the contract finishes - we help with future projects and ongoing maintenance and support as required.

NATIONAL COVERAGE ➔ RMS Shopfittings are a widely recognised fit-out specialist company. We offer the same complete service throughout New Zealand and Australia.
Joinery & Display Manufacture

Custom Counter with LED lighting & feature panelling

RMS SLATWALL

Slatwall is the most common and versatile display system on the market. It offers total flexibility for vertical and horizontal merchandising while also giving endless possibilities for board colour, pitch (the space between grooves), finish, shelving, and display accessories.

Slatwall comes in a range of finishes from plain MDF, white melamine to coloured melamine. We can also PVC match the edges to give the nice tidy look. Aluminium capping is also available as an additional option.

Choose your slatwall to suit on the next page! 😊
Specifications:
- Full panel size comes 2400mm x 1200mm. RMS can also cut to size.
- Slatwall is made with horizontal grooves to accept a variety of display accessories.
- We use first grade 18mm melamine that is a tough low pressure laminate which is highly durable and scratch resistant.

Format:
- Landscape – 2400mm wide x 1200mm high
- Portrait – 2400mm high x 1200mm wide
- RMS can also join two sheets to make 2400 x 2400 or odd sizes

Pitch (space between grooves):
- Standard spaces are 75mm, 100mm, 150mm, and 200mm
- RMS can do custom spacings if required

Inserts:
- Aluminium as increases the strength of the board

Colours:
- Raw MDF – unpainted
- Standard White
- Large range of melamine colours available

Edges:
- 2mm PVC edging
- Aluminium capping

*Please see our shelving and slatwall accessories brochures for endless display options.

RMS Showcase System

**Planit System**

The strong aluminium extrusion and all accessories are available in a range of powder coat and anodised finishes. Pre-finish timber and fabric covered panels, glass or acrylic can be slotted into the extrusion.

The Planit System is just that 'Plan it' yourself. They can be easily assembled and dismantled with the use of an allen key, or this can be done for you whether you require standard units or units designed to your specifications.

The Planit system has a diverse range of options for the retail store, through to home furnishings items such as showcases, shelving, coffee tables, TV cabinets and showroom displays.

**Radius and Square Cast Connectors**

Strong and stylish cast connectors for both radius and square extrusion profiles. The Planit cast connector is available in a range of powder coat finishes, or a ‘Satin Chrome’ to match the satin anodised extrusion.

Planit is a user friendly system which has design options that are achieved with very few components. The construction is strong yet functional. Planit add-ons are totally inter-changeable with the square or radius profiles.
‘Plan-It’ Yourself

The RMS showcase system is just how it sounds. We can manufacture to the size you want – you just tell us the dimensions and we will make it to that.

We also have a range of standard / popular sizes as below if you need some guidance to what you are looking for.

Please let us know if you have any questions, or need further information and one of our friendly staff members will be glad to help.
Tower Display Units Series 200

500 x 1000 x 1800 high

P232  L232
500 x 1000 x 1800 high
RMS SHELVING

Melamine Shelving:

A very popular option, mainly in retail, is our melamine shelves. We use the Prime Melamine Range as standard that has a variety of different colours and finishes available. With all edges finished in matching PVC. This shelving can be used with our slatwall, wall channel, post system and gondolas. We also provide board in MDF or from the Bestwood and Melteca range.

We manufacture the shelves to order and the customers requirements, please do contact us for a quote or more information.

Glass and Acrylic Shelving:

We supply glass and acrylic shelving options that are another great way for displaying your product. We make the shelves to order to suit your shelving requirements.

*Please do contact one of our friendly staff if you need further information or advice on your shelving requirements, we will be glad to help.

All Mirrors Individually Boxed Complete with Bracket

Mirror Selection Guide

From the site you intend to install the mirror, judge the distance in metres to the viewer and to the area to be observed. Add the two distances together to give a combined distance and use the following chart as a guide.

<table>
<thead>
<tr>
<th>Mirror Size</th>
<th>Combined Distance</th>
</tr>
</thead>
<tbody>
<tr>
<td>300mm</td>
<td>Up to 5m</td>
</tr>
<tr>
<td>450mm</td>
<td>Up to 7m</td>
</tr>
<tr>
<td>600mm</td>
<td>Up to 10m</td>
</tr>
<tr>
<td>760mm</td>
<td>Up to 13m</td>
</tr>
<tr>
<td>900mm</td>
<td>Up to 18m</td>
</tr>
<tr>
<td>1200mm</td>
<td>Over 18m</td>
</tr>
</tbody>
</table>

NOTE: The size of the mirror required depends on the combined distance and the detail required in the reflective image.

THE GOLDEN RULE: THE LARGER THE MIRROR - THE LARGER THE REFLECTED IMAGE
**RMS Standard Convex Mirror**

A very versatile mirror that is able to be adjusted to any angle for optimal line of sight.

Ranging in size from 300mm to 1200mm in diameter.

(Includes ‘J’ bracket for fixing to ceiling/wall)

**RMS Ceiling Dome Convex Mirror**

The Ceiling Dome is probably the most effective surveillance method and deterrent to retail theft due to its large 360° area of reflection.

Ranging in size from 600mm to 1200mm in diameter.

(Includes ‘J’ bracket for fixing to ceiling/wall)

**RMS Half Dome Convex Mirror**

This wall-mounted mirror is particularly effective at 180° T-Junctions or where aisle ends need monitoring, allowing two-directional vision.

Sizes from 600mm x 300mm to 1200mm x 600mm in diameter.

(Includes ‘J’ bracket for fixing to ceiling/wall)

**RMS Quarter Dome Convex Mirror**

This ceiling-mounted mirror is ideal at 90° right angle corners where space is at a premium.

Sizes from 300mm x 300mm to 600mm x 600mm in diameter.

(Includes ‘J’ bracket for fixing to ceiling/wall)

*Please ask one of our friendly staff for more information ☺*
